ORDER NO. 94-006-WP

FINDINGS OF FACT

Pursuant to the provisions of the Alabama Environmental Management Act, Code of Alabama 1975, §§ 22-22A-1 through 22-22A-16 (1990 Rplc. Vol.), and the Alabama Water Pollution Control Act, Code of Alabama 1975, §§ 22-22-1 through 22-22-14 (1990 Rplc. 1. The Housing Authority of Hamilton, Alabama (hereinafter, "the Permittee") operates a waste treatment facility known as HUD Housing Project Wastewater Treatment Plant in Double Springs, Alabama which discharges pollutants from a point source into Cane Creek, a water of the State.

2. On October 14, 1988 the Department issued NPDES Permit Number AL0057177 to the Permittee which establishes limitations

on the discharge of pollutants from such point source, designated therein as outfall number 001, into Cane Creek. Said permit also requires that the Permittee monitor its discharge and submit periodic Discharge Monitoring Reports to the Department describing the results of its monitoring.

3. Discharge Monitoring Reports submitted to the Department by the Permittee for the month(s) of August, October and December 1990, January through March 1991, November 1991, and January through May 1992 indicate that the Permittee has discharged pollutants from such point source into Cane Creek in violation of the limitations established in NPDES Permit Number AL0057177.

4. The Permittee cannot comply with the limitations on the discharge of pollutants from such point source established in NPDES Permit Number AL0057177 without construction of new or additional treatment works or modification of existing treatment works.

5. On October 1, 1992, the Department issued Administrative Order Number 93-002-WP to the Permittee which required the Permittee to construct an intermittent sand filter and chlorine contact chamber at the HUD Housing Projects's wastewater treatment plant in Double Springs, Alabama.

6. The Permittee has elected to connect to the Double Springs sewer system when it is completed and cease discharge from its wastewater treatment plant to Cane Creek.

7. Said sewer system is scheduled for completion by June 1, 1994.
